HN MULTIVERRSE

EMPLOYEE & EMPLOYER CHANGE.

Long-term Recruitment Partner

A practical hiring solution for one important vacancy.

88,000

12 Candidates • 365 days

Best suited for: Small businesses, startups and employers making a single hire.

Effective package value: ■ 88,000 for 12 selected candidates

What You Receive

Included	What it means for your business
12 Candidate	HN Multiverrse recruitment support for one selected hiring requirement.
365 Days Validation	30-day post-joining validation/replacement protection, subject to the agreed replacement terms.
3 Months Candidate Replacement	If the selected candidate leaves within the agreed replacement window, HN Multiverrse can work on a replacement for the same/similar role, subject to the agreed terms.
Recruitment Coordination	Requirement understanding, candidate sourcing, initial screening and coordination through the hiring process.
Employer Communication	Structured updates and coordination between the employer and shortlisted candidate.

Why This Plan Makes Business Sense

- You get recruitment assistance without committing to a large annual package.
- The 365-day validation period reduces immediate replacement risk.
- A replacement commitment gives additional protection compared with a simple job-posting service.
- The service is designed around your vacancy rather than leaving you to manage a large applicant pool yourself.

Why HN Multiverrse Is Different

- HN Multiverrse combines a job portal with hands-on recruitment support.
- The focus is on candidate fit and coordination, not only publishing a vacancy.
- Replacement support is built into the commercial model.
- A smaller entry package makes professional recruitment support accessible to SMEs.

hn multiverrse
Employer and Employee Change!

How the Recruitment Process Works

01	Share requirement
02	Recruitment team sources & screens
03	Shortlist
04	Interview & selection
05	Candidate joins
06	Validation / replacement support

Portal vs. Recruitment Partnership

Typical job-portal approach	HN Multiverrse approach
Employer posts a vacancy and manages responses.	Requirement understanding + sourcing + screening + coordination.
Large volume of applications may require heavy employer filtering.	Focus on relevant profiles and shortlist coordination.
Database access is often a separate product.	Selected plans include assisted recruitment and, where specified, WhatsApp CV access.
Post-placement support may be limited to platform terms.	Eligible plans include explicit validation/replacement support.
Employer manages multiple vendors and communication channels.	Higher plans provide a dedicated recruiter for continuity.

What the Employer Should Expect

- Clear requirement discussion before sourcing begins.
- Candidate profiles should be relevant to the agreed role criteria.
- Interview coordination and follow-up are handled according to the selected service scope.
- Post-joining support is available according to the plan's written validation/replacement terms.
- The service is intended to improve hiring efficiency; no recruitment service should promise a guaranteed job, interview or candidate acceptance.
-

Important commercial note: The terms shown here are a polished sales-document version of the package you provided. Before publishing or accepting payment, HN Multiverrse should define the written rules for replacement eligibility, candidate rejection, refund amount/calculation, replacement timeline, role changes, salary/CTC changes, candidate misconduct, employer termination and taxes. WhatsApp CV sharing should operate only with appropriate candidate consent and privacy safeguards.
